The seventh gift created for the Hands Touching Hearts collection is an ornament.

The wooden piece measures 2 1/2" wide by 3 1/2" tall and can be displayed year round.

Like all program keepsakes, the ornament is designed to be transformed by the work of the decorator's hands. In this case, program participants decorate the back of the gift.

When finished, the decorator has two options:

1. Take the keepsake and give it to an

active-duty service member, reservist or veteran that the decorator knows personally.

2. Better yet, surprise a stranger! Just walk up to someone wearing a military uniform or other identifying attire, present the ornament and express heartfelt gratitude.
